**DOUBLE-DECKER
14 BERTH**

Double-Decker 14 Berth

Max Capacity: 14 bunks

This superior 14 berth double decker is available as a regular 14 bunk configuration with a rear lounge and small upper front seating area with 2 individual sofa seats. This bus can also be a "Star Bus / Artist Bus" by converting the rear lounge to the Star Bedroom (see photo). The front 4 bunks can also be removed to create an extra lounge and create additional living space. That option would then make the bus a 10 berth with front lounge and rear lounge.

- All our buses are fully air-conditioned, have land lined air-conditioning (32 amp 3 phase power supply is required at the venue), and have thermostatically controlled central heating systems. Power supply inside the bus is 240V, available whilst driving and on landline power.
- For your safety and security all our vehicles are fitted with GPS tracking devices.

Amenities

Downstairs we have:

- Fully equipped kitchen with large fridge, bean to cup coffee maker, microwave, kettle, toaster, and sink with hot and cold running water
- Large flatscreen LED backlit TVs connected to a multimedia system with movies stored on hard drives, iPhone/iPad connectivity, all of which run through a Bose sound system
- PlayStation 5
- Internet facilities (WiFi pay as you go)
- A fully tiled washroom with fresh water flushing (i.e. not chemical) ceramic toilet
- Electronic keypad entry

Upstairs we have:

- Rear lounge area with LED backlit TV, multimedia system, iPhone/iPad connectivity, Bose surround system, small fridge
- Doors to separate bunk areas from the lounges
- All bunks are made up with high thread count, luxury bed linen and utilise memory foam mattresses

Rear Lounge Configured as Star Bedroom/Artist Bedroom
