**SINGLE-DECKER  
8 OR 10 BERTH  
BUS 4**

# **Single-Decker 8 Berth or 10 Berth**

## **Max Capacity: 8 Bunks or 10 with Star Bedroom**

This unique and specially designed single decker is available as a regular 8 bunk configuration with a rear lounge at the back, kitchen and central seating/lounge. The 8 bunks are at the front section of the bus. This bus can also be a "Starbus / Artist bus" by converting the rear lounge into the "Star Bedroom". There is a ensuite WC/shower room connecting the rear lounge and the centre lounge. This is lockable and private for any Artist using the bedroom.

All our buses are fully air-conditioned, have land lined air-conditioning (32 amp 3 phase power supply is required for this). Thermostatically controlled heating system. There are 3 separate air conditioning/heating roof pods giving individual temperature control in different area within the bus. Specifically the rear lounge has it's own roof top pod giving separate climate control which is great if converted to the Star Bedroom giving the Artist their own control.

For your safety and security all our vehicles are fitted with GPS tracking devices.

# Amenities

8 large oversize bunks each approx. 6ft 7 in length. All bunks are made with high thread count luxury bed linen and hotel quality pillows with brand new memory foam mattresses.

Each bunk is fitted with a 16 inch LED Smart TV allowing play of all usual subscription TV apps such as Netflix, Apple TV and YouTube etc. Each bunk has it's own private storage compartment with mini safe for secure storage of valuables.
